

A diagram illustrating a 2D array or memory layout. It consists of a grid of small squares representing elements. The horizontal axis (columns) is labeled from 0 to 319, with an ellipsis (...) between 3 and ... indicating continuation. The vertical axis (rows) is labeled from 0 to 239, with an ellipsis (...) between 2 and ... indicating continuation. The grid is divided into two main sections by a thick horizontal line at row 239. The top section contains rows 0 through 238, and the bottom section contains row 239. The right side of the grid is also truncated by a thick vertical line at column 319. Ellipses (...) are used to indicate that the grid continues beyond the shown boundaries.
